PROFESSIONAL SUMMARY

7+ years Full Stack Developer building scalable web platforms across government and product domains. Expert in Ruby on Rails, Node.js, Next.js, and PostgreSQL with strong API, UI, and database design. Improves performance, reliability, and maintainability through clean code, agile leadership, and cross-team collaboration.

TECHNICAL SKILLS

Programming Languages: JavaScript, Ruby, PHP

Frontend: Next.js, HTML, CSS

Backend: Node.js

Databases: PostgreSQL, MySQL

Frameworks: Ruby on Rails, Next.js

DevOps Tools: Git, Jira, Postman

AI Tools: Gemini 2.5 Flash

Operating Systems: Linux, Windows

Hosting / Web Servers: IIS (Internet Information Services)

Methodologies: Agile

PROFESSIONAL EXPERIENCE (7+ YEARS)

Web Developer - Consultant | Department of Justice, Ministry of Law & Justice, Govt. of India | New Delhi |

Jul 2024 - Present

- Orchestrated a Full Stack Revamp using Next.js and Node.js, boosting UI responsiveness and server throughput.
- Established a local Git-based version control system to centrally manage source code and maintain controlled change tracking.
- Integrated an inter-departmental portal, establishing a unified monitoring framework and centralized reporting.
- Implemented AI-based modules to improve data accuracy, workflow efficiency, and monitoring capabilities.
- Delivered clean, maintainable code with clear technical documentation, improving onboarding efficiency and long-term knowledge transfer within the team.

Technologies Used: Next.js, Node.js, Gemini 2.5 Flash, Git, Postman, Windows, HTML, CSS, JavaScript, jQuery, IIS (Internet Information Services), PHP

Full Stack Developer (Freelance) | Freelance Software Development | New Delhi | Jun 2022 - Jun 2024

- Worked closely with clients to understand their requirements and challenges, delivering effective technical solutions.
- Designed and optimized database schemas and Active Record migrations on PostgreSQL, significantly improving query performance on critical endpoints.
- Built single-page applications with React, enhancing user experience and improving task completion and engagement metrics.
- Utilized Rails Console and instrumentation to accelerate root-cause analysis, reducing debugging effort and turnaround time.
- Established structured unit and integration testing practices, improving code reliability and significantly reducing production defects over time.

Technologies Used: Ruby on Rails, PostgreSQL, Next.js, Git, Postman,

Technology Specialist | Stelling Technologies Pvt Ltd (RailYatri) | Noida | Sep 2019 - Feb 2022

- Explored and implemented high-performance pages using Next.js and AMP to improve Google PageSpeed Insights scores and enhance search visibility through faster load times.
- Integrated partner business APIs via REST interfaces to extend platform capabilities and support business collaboration.

- Mentored junior engineers on product context and Ruby on Rails best practices, reducing rework and improving overall code quality.

Technologies Used: Ruby on Rails, Next.js, AMP, HTML, CSS, JavaScript, jQuery, Redis, Linux, Git, MySQL, Agile

Backend ROR Developer | 1MG Technologies Pvt Ltd | Gurgaon | Feb 2019 - Sep 2019

- Designed and implemented RESTful APIs in Ruby on Rails, improving API response times for high-traffic services.
- Monitored and troubleshooted application performance, lowering production incidents and errors.
- Conducted peer code reviews to enforce coding standards, enhancing code quality and maintainability.
- Built database table structures per architectural guidelines and optimized PostgreSQL queries for heavy-load modules.

Technologies Used: Ruby on Rails, PostgreSQL, Git, Postman, Linux, Jira, Agile

Software Developer | Svasth Life Pvt. Ltd. (Healthi) | Bangalore | Aug 2015 - Nov 2016

- Collaborated across functions to plan, design, and deliver end-to-end features on Ruby on Rails, accelerating release cycles.
- Troubleshooted and improved existing pages, cutting production issues.
- Authored backend test cases to validate APIs and services, increasing test coverage.
- Built RESTful APIs and improved request handling, reducing page load time.
- Implemented third-party tracking tools to inform UX improvements, lifting key conversion events.

Technologies Used: Ruby on Rails, HTML, CSS, JavaScript, jQuery, Git, MySQL, Linux, Jira, Agile

PROJECTS

Integration of MIS Portal of Department of Justice with Nyaya Vikas Portal of NRSC, ISRO | Department of Justice, Ministry of Law & Justice, Govt. of India

<https://bhuvan-nyayavikas.nrsc.gov.in/sanctiondata>

Nyaya Vikas is a Department of Justice initiative for monitoring judicial infrastructure. The integration of the Department of Justice's MIS Sanction Data Portal with Nyaya Vikas now enables centralized monitoring of judicial officer vacancies across District and Subordinate Courts.

- Led development of data migration and integration from the DoJ MIS Portal into the Nyaya Vikas Portal, including consolidation of requirements with the Department of Justice and NIC.
- Enhanced and refactored the existing codebase, implementing new features and fixes to improve data management, monitoring, and overall usability.
- Integrated Department of Justice feedback and coordinated NRSC-led security testing to enhance portal workflows and ensure compliance and security.

Technologies Used: MySQL, PostgreSQL, PHP, HTML, CSS, JavaScript, jQuery, Git, Windows

Development of AI based solutions with Gemini 2.5 Flash for Intelligent Data Processing | Department of Justice, Ministry of Law & Justice, Govt. of India

<https://bhuvan-nyayavikas.nrsc.gov.in/>

Designed and implemented AI-enabled solutions using Gemini 2.5 Flash to enhance data validation, monitoring, and user assistance on the Nyaya Vikas Portal.

- Implemented an AI-based chatbot using the Gemini 2.5 Flash API to provide real-time assistance and guidance to users on the Nyaya Vikas Portal.
- Developed an AI-driven automated validation system to detect discrepancies and anomalies in project data uploaded to the Nyaya Vikas Portal.

Technologies Used: Next.js, Node.js, PostgreSQL, Gemini 2.5 Flash, Windows

EDUCATION

Bachelors of Technology (IT) | 2011 - 2015

Indian Institute of Information Technology, Allahabad | *Allahabad*
